

Capability Statement

Heart Cadence Inc. (HCI) helps Canadian businesses become government-ready, submit stronger bids, and deliver public sector contracts with confidence.

Core competencies

- Government procurement readiness
- Bid and proposal development
- Project management
- IT management and cloud
- Technology stack selection and deployment
- Customer experience and journey design
- Business process improvement

What sets us apart

- Execution, not just advice.** We write bid sections, set up systems, and design client processes alongside your team.
- Technology and people together.** About 20 years of IT experience, paired with deep customer experience expertise.
- Plain language.** Clear documents that are easy to evaluate and easy to trust.
- Honest advice.** If an opportunity is not a good fit, we say so.

Team

Jason K. McEwan

Founder and Principal Consultant. About 20 years of IT experience.

Rory Stennett

Director, Client Experience and Growth. Customer experience and journey design.

What we don't do

No lobbying. No promises of contract wins. No claims of insider access or government connections.
